

## 7A-23D Electric Suction Apparatus

- Adopting oil-free piston pump
- Clean-without pollution of oil and smoke
- Convenient-no need add oil to maintain daily
  - Safe-no plus pressure during using
- No flow backwards pressure when the machine stops, so the liquid won't flow backwards
- Complete plastic panels, hand-switch and foot-switch for operating easily. Select negative pressure at will with no level for pressure adjustment, and overflow protection mechanism, safe and reliable
  - Principle technical data
    - Noise:  $\leq 65$  dB (A)
    - Power:  $\leq 180$ VA
    - Pumping rate:  $\geq 20$ L/min
  - Reservoir capacity: 2500mL/pc, 2pieces
- Not suitable for continuous use in the induced abortions and for the inflammable or explodable surroundings. Max continuous working time is 30 minutes, continuity rate: 50%
  - Electrical appliance safety requirement: Class I, Type B
